

Commission Calculation

Presentation to Mr Gan Zhi Hong
21/05/2026

Prepared by: Nurul Aqilah Saiful Bahril

Workflow

1. Understand how internal commission works
2. Understand Database schema
3. Build python script

Commission Calculation

Agent Type = Internal

Commission Type

1. Basic Commission
2. Net Floor Price Commission
3. ANP Commission

Data Base

1. Postgres (PostgreSQL) database, accessed via SQL proxy API
2. Excel file

Basic Commission

Calculation

Sales Price = $\text{total_amount} - \text{epp rate}$

Basic Commission = Sales Price x m%

Agent type:

Sales executive, m = 3%

Senior executive, m = 3.25%

Senior gets additional 0.25% from sub agent

Net Floor Price Commission

Sales Price above Net Floor Price

Calculation

Sales Price = total_amount - epp rate

System Price = unit_price

$(\text{Sales Price} / \text{System Price} - \text{Net Floor Price}) * m\% = \text{NFP Commission}$

Type of Net Floor Price Commission

1. Sales Price above Net Floor Price
2. System Price above Net Floor Price
3. Sales Price below Net Floor Price

Net Floor Price Commission

Sales Price above Net Floor Price

Calculation

Sales Price = total_amount - epp rate

System Price = unit_price

$(\text{Sales Price} - \text{Net Floor Price}) * m\% = \text{NFP Commission}$

If Sales Price > Net Floor Price then agent get 25% commission

Net Floor Price Commission

System Price above Net Floor Price

Calculation

Sales Price = total_amount - epp rate

System Price = unit_price

$(\text{System Price} - \text{Net Floor Price}) * m\% = \text{NFP Commission}$

If System Price > Net Floor Price then agent get 100% commission

Net Floor Price Commission

Sales Price below Net Floor Price

Calculation

Sales Price = total_amount - epp rate

System Price = unit_price

$(\text{Sales Price} - \text{Net Floor Price}) * m\% = \text{NFP Commission}$

If Sales Price < Net Floor Price then agent bears 20% commission

ANP Commission

Sales Price below Net Floor Price

- Agent received commission the next month
- Atleast 5% deposit are made
- Commission from total_amount

Condition:

- If Accumulated total amount is 0 - 59K, agent get RM 0
- If Accumulated total amount is 60k - 179K, agent get RM500
- If Accumulated total amount is 180K - 359K, agent get RM1000
- If Accumulated total amount is above 360K, agent get RM1500
- If Accumulated total amount is 720K, agent get RM2000
