

Commission Portal

Install & Update Guide

Finance Commission Dashboard · Version 1.2.12 · August 2026

A short guide for everyone using the Commission Portal — on **Windows or Mac**. You install it **once**. After that it keeps itself up to date.

(Once it is running, see [Using the Commission Portal](#).)

PART 1

Part 1 — Installing

Set aside about 5 minutes. There is nothing to install beforehand — the Portal brings everything it needs with it.

Step 1 — Download the Portal

- 1 Go to the [Commission Portal download page](#).
- 2 Scroll down to the **Assets** list.
- 3 **Windows:** click `CommissionDashboard-Setup-....exe` to download it.
- 4 **Mac:** there is no Mac download yet. The Mac steps below are written and ready for when one is published — until then, use a Windows PC.

Step 2 — Install

WINDOWS

- 1 Open the file you just downloaded.
- 2 **If Windows shows a blue "Windows protected your PC" box:** click **More info**, then **Run anyway**. This is normal — Windows shows it for any app it has not seen before.
- 3 Click **Next** through the screens. Tick **Create a desktop shortcut** if you would like one.
- 4 Click **Install**.

MAC

- 1 Open the `.zip` file you just downloaded (it usually unzips by itself).
- 2 Drag **Commission Portal.app** into your **Applications** folder.
- 3 **If macOS says the app is from an unidentified developer:** right-click the app, choose **Open**, then click **Open** again. This is normal for apps outside the App Store.

✓ Step 3 — Open the Portal

Windows: Start Menu → **Finance Commission Dashboard** (or the desktop shortcut).

Mac: **Applications** → **Commission Portal**.

Log in with the **username and password IT gave you**. There is no account to create — yours already exists. The first load takes a moment while it fetches the year's data. **You are done.**

PART 2

🔄 Part 2 — Updating

Short version: you don't have to do anything. The Portal checks for new versions by itself and tells you when one is ready. This works the same on Windows and Mac.

When an update is ready

A **Software Update** box appears at the **bottom of the left-hand menu**, showing the new version number.

The Software Update panel, showing a new version available with an Install Update button

If you see an "Install Update" button:

- 1 Click **Install Update**.

- 2 Click **OK** on the confirmation message.
- 3 Wait. A progress bar runs, the Portal restarts itself, and the page reloads on its own. This takes a minute or two.
- 4 **Do not close the window while it is working.**

If you do not see a **button**, the box says "Ask an admin to install it." — there is nothing for you to do. Let your admin know.

Things worth knowing

Nothing of yours is lost. Your login, your Excel files, saved reports and any rates you edited all stay exactly as they are. An update only replaces the program itself.

You never download the installer again. Steps 1–3 above are one time only.

To check your version: look at the bottom-left corner of the menu.

If an update fails, the Portal puts the old version back by itself and keeps working. Tell IT so they can look into it.

TROUBLESHOOTING

If something goes wrong

WHAT YOU SEE	WHAT TO DO
The Portal will not open	Tell IT — ask them to check <code>dashboard.log</code> in the Portal's folder
Mac: "cannot be opened because it is from an unidentified developer"	Right-click Commission Portal.app and choose Open , then click Open again. You only need to do this the first time.
Mac: "Commission Portal is damaged and can't be opened"	The download did not finish cleanly. Delete the app, download the <code>-macos.zip</code> again from the release page, and open it with right-click → Open .
An update failed	Tell IT — ask them to check <code>dashboard.log</code>
Numbers look out of date	Wait a few minutes, or click Sync Data at the top right
