

# Commission Portal " Install & Update

A short guide for everyone using the Commission Portal (Windows & macOS).

You install it **once**. After that it keeps itself up to date.

*(Once it is running, see Using the Commission Portal.)*

## Part 1 " Installing

Set aside about 5 minutes. There is nothing to install beforehand " the Portal brings everything it needs with it.

### *Step 1 " Download the Portal*

Go to the **Commission Portal download page**  
and scroll down to the **Assets** list.

**Windows users:** Click **CommissionDashboard-Setup-!.exe**

**Mac users:** Click **CommissionDashboard-Setup-!.macos.zip**

### *Step 2 " Install*

#### **Windows:**

1. Open the .exe file you just downloaded.
2. **If Windows shows a blue "Windows protected your PC" box:** click **More info**, then **Run anyway**. This is normal.
3. Click **Next** through the screens. Tick **Create a desktop shortcut** if you would like one.
4. Click **Install**.

#### **Mac:**

1. Open the .zip file you just downloaded (usually auto-extracts).
2. Drag **Commission Portal.app** to your **Applications** folder.

3. Open **Applications** and find **Commission Portal**, then double-click it to launch.

### ***Step 3 – Create your login***

A window opens and asks you to create an account. Type a **username** and a **password** and press Enter. Write them down – this is how you log in.

### ***Step 4 – Add your access keys***

The Portal needs keys to reach the company data. **Ask IT for your access keys** – they will send you a few lines of text that look like SOMETHING=a-long-code.

#### **Windows:**

1. The Portal's folder is called **Commission Dashboard** (look in your Start Menu or the installer told you where).
2. Find the file **.env** and open it with Notepad (right-click – **Open with** – **Notepad**).
3. Go to the end and paste IT's lines, each on its own line.
4. Save (**Ctrl+S**) and close.

#### **Mac:**

1. Open **Finder** and go to **Applications**.
2. Right-click **Commission Portal.app** – **Show Package Contents**.
3. Navigate to Contents/Resources/ and find the **Commission Dashboard** folder.
4. Open **.env** with any text editor (right-click – **Open With** – **TextEdit**).
5. Go to the end and paste IT's lines, each on its own line.
6. Save and close.

Keep these keys private. Do not email them or send them in a chat message.

### ***Step 5 – Open the Portal***

**Windows:** Start Menu – Finance Commission Dashboard (or use the desktop shortcut)

**Mac:** Applications – Commission Portal

Log in with the username and password from Step 3. The first load takes a moment

while it fetches the year's data. **You are done.**

## Part 2 – Updating

**Short version: you don't have to do anything.** The Portal checks for new versions by itself and tells you when one is ready.

### *When an update is ready*

A **Software Update** box appears at the **bottom of the left-hand menu**, showing the new version number.

!The Software Update panel, showing a new version available with an Install Update button

**If you see an "Install Update" button:**

1. Click **Install Update**.
2. Click **OK** on the confirmation message.
3. Wait. A progress bar runs, the Portal restarts itself, and the page reloads on its own. This takes a minute or two.
4. **Do not close the window while it is working.**

**If you do not see a button**, the box says *"Ask an admin to install it."* – there is nothing for you to do. Let your admin know.

### *Things worth knowing*

- **Nothing of yours is lost.** Your login, your access key, your Excel files, saved reports and any rates you edited all stay exactly as they are. An update only replaces the program itself.
- **You never download the installer again.** Steps 1–5 above are one time only.
- **To check your version:** look at the bottom-left corner of the menu.
- **If an update fails**, the Portal puts the old version back by itself and keeps working. Tell IT so they can look into it.

## If something goes wrong

| What you see             | What to do                                                           |
|--------------------------|----------------------------------------------------------------------|
| "Token expired"          | Ask IT for a new access key, then redo Step 4                        |
| The Portal will not open | Tell IT â€” ask them to check `dashboard.log` in the Portal's folder |
| An update failed         | Tell IT â€” ask them to check `dashboard.log`                        |
| Numbers look out of date | Wait a few minutes, or click <b>**Sync Data**</b> at the top right   |
